A LUXURY.

Of all the accessories to the Toilet, none is more enjoyable than a rich fragrant perfume What can be more pleasing to the senses than the aroma of blooming flowers, and not only pleasing, but actually healthful? Pathologically the use of perfumes is exceedingly valuable, their well-known prophylactic properties exercise a most beneficial influence. To the invalid there is nothing more agreeable or refreshing than the Citrine odors of purely floral fragrance, avoiding always the heavy sweet perfumes of France and England, which are so apt to cloy and satiate the sense of smell, rather injuring than refreshing those persons of delicate organisation. In

MURRAY AND LANMAN'S FLORIDA WATER.

We have the pure and natural fragrance of flowers in bloom, unaltered and unimpaired by the addition of any foreign substances, and entirely free from the heavy sweetness above referred to. It is, we believe, the only perfume possessing, in a marked degree, the power of

REFRSHING AND INVIGORATING

Both the body and the mind. It is adapted equally for the Handkerchief, the Toilet, and the Bath. For the first-mentioned nothing can be more exquisitely delicate, yet full-bodied; weeks after sprinkling, the handkerchief is found to exhale a perfect wealth of delicious aroma. For the Toilet it is quite unequalled, a few spoonfuls mixed with the water in the basin tonling greatly to soften and beautify the skin; and we believe it to be a Perfume suitable for use

IN THE BATH,

Where its wonderful refreshing and invigorating properties give it peculiar value. In some parts of the world it is customary to empty from three to six bottles into each bath: but this quantity is not necessary—from a half to a whole bottle will be found to produce the most delightful effect, filling the bath-room with clouds of fragrance, and imparting a delicious buoyancy to the fatigued body and mind.

BEWARE OF COUNTERFEITS.

Always ask for the Florida Water, prepared by LANMAN and KEMP, New York, who are the sole Proprietors of the genuine article.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

MONTEVIDEO.

ANTIGUA FOTOGRAFIA.

BATEY CA.

Montevideo.

This popular Establishment continues to maintain its well-earned reputation of being the first Photographic and Fine Art Gallery in the River Plate. Its Proprietor, during a recent visit to Europe and North America, has spared no effort or expense to secure the best artistic skill, and the latest and most approved inventions applicable to the art.

The new building, in Calle 33, is modelled on the celebrated Rentlenger Studio in Paris, and combines all the modern improvements and latest inventions of the day.

PHOTO-DRAWINGS.

This new style of picture, introduced by Mr. S. L. Reignolds, of London, makes the finest and most effective style of Portrait known at the present day. Their purity of colouring and delicacy of tone is such, that some of the first English artists have been unable to determine whether they are Photographs, or simply and purely Water Color Drawings. The process is peculiarly applicable to the reproduction and enlargement of Card Photographs, enabling the artist to introduce accessories and backgrounds, change dresses, or alter figures; and, in fact, to make a harmonious portrait, which will be a 'Picture' on which the eye rests with pleasure, as well as a faithful likeness.

THE PORCELAIN PICTURE.

All styles and sizes, plain and colored, of this popular novelty, in prices ranging from five to twenty-five patacons each.

THE REMBRANDT STYLE.

This is a recent American invention, and has created a 'furore' in the States which bids fair to revolutionise Photographic Portraiture. Its peculiarity is, that it makes a Portrait stand out in bold relief from a black background, like a statue done in marble.

THE QUEEN'S BIRTHDAY.

To-day is the official celebration of Her Majesty's birthday. Queen Victoria completed her fifty-first year on the 24th inst., but the official celebration of the day has been appointed by the British Government for the 28th.

It is rather a strange fact that, while most European nations have several national feast-days, England has but one—Her Majesty's birthday—which, notwithstanding political divisions and party questions, awakens in the hearts of her subjects in every clime feelings of patriotism and love of country.

Full satisfaction does it afford us all to think that amidst the rapid progress of the Age, England still holds her place in the van of nations. Military or naval glory may have at other times shed a greater halo around the British Isles, and we can point to no modern Trafalgars or Waterloos; but her victories in 1870, if less shining, are more lasting. In all that characterizes a great and free people there is undeniable evidence of a national vitality which never at any period showed to greater advantage than in the reforms which our public men have the courage to initiate and the decision to carry out.

Politicians may point to the state of Ireland to-day as a withering proof of decadence, but the disestablishment of the Irish Church and the marked liberality of the new Land Law show that there is a will in the English nation to do full justice to Ireland. The abuses of ages cannot be swept away in a moment. England's greatness must henceforth be identified with Irish prosperity, and the free and liberal administration which now marks the history of the British Government is, after all, the best guarantee of the future prosperity and happiness of Ireland.

In no country in the world has English enterprize thrived more than in this. English capital has proved one of the chief elements in the development of Argentine industrial resources; to measure its importance 'tis but necessary to blot from our calender some of the greatest enterprizes in the country, and erase from our customs returns four-fifths of our wool exports and three-fourths of our imports. English capital and English enterprize have proved the enchantress's wand in this republic; they permeate every artery of the nation; national greatness and individual prosperity are their results. In no land is the Englishman more at home or more respected than in this—a respect that has been earned by years of friendly intercourse and the closest commercial relations. Englishmen have lived and settled in this country, where for the most part they have formed ties of a cherished nature, which make them all cling to their adopted country with an affection scarcely inferior to their love for their native land. The Irish and Scotch may take to themselves the honor of having redeemed the camp, whilst the English have built up the town. English, Irish and Scotch have reason to be proud of this day, not only on account of their national greatness, but also for the prestige which, above all other foreigners, they enjoy here.

We salute our fellow-countrymen on this national day, and express a hope that Her Majesty may long be spared to reign over an empire upon which 'the sun never sets.'

THE MAY FESTIVALS.

The May festivals this year may be said to have commenced on Monday the 23rd, for in the afternoon the Plaza was crowded with visitors; at night the public buildings were illuminated, and towards morning the grand Progreso ball commenced.

Tuesday was ushered in as a sort of half-and-half business pleasure day; all the merchant's offices, houses of business, and newspaper offices were open, but there was little done save writing for the packet.

The Bolsa was open, but Bonds were forgotten for the moment, and half the brokers spent the day in the Plaza looking at the splendidly dressed ladies as they passed before the Cathedral, and taking a very lively interest in the acrobats.

The fireworks commenced at the usual hour, and the crowd was greater than ever. The arrangements were very complete, and from the paradise trees were hung Chinese lamps, which greatly improved the appearance of the Plaza.

Colon was filled the same as the previous night, not a seat to be had in any part of the house. We noticed in the boxes a good sprinkling of foreigners. The pit might be said to be exclusively foreign. At midnight the Plaza looked splendid, such was the glare of gas.

Wednesday—the glorious 25th—was ushered in with a perfect roar of artillery. As the glorious sun of the 25th cast its first rays on the cradle city of South American liberty, the children of the schools, all neatly dressed in white, joined hands round the statue of liberty, and sang that exquisitely beautiful air "Oid Mortales."

Wednesday morning, therefore, the sports began in real earnest. The trains from the country brought in thousands from the suburbs. Up to 2 o'clock p.m., there was a perfect stream of humanity rushing towards the Plaza, which a little after noon became so crowded that both ingress and egress became impossible.

At 10 o'clock a.m. Col.——brought his men into the Plaza, and took up position in front of the Cathedral. At a little after 11 o'clock President Sarmiento and Vice-President Alsina, with nearly all the National Ministers, Governor Castro and the Corps Diplomatique, and others, entered the Cathedral and took seats alongside the consular body, and opposite the members of Congress and public employés. The Cathedral looked to immense advantage, and was filled to its utmost. At one o'clock the municipal saloons began to fill with ladies dressed in all the fashion of the day, and President Sarmiento in his grand state coach drove off to salute Brigadier Zapiola, and from thence drove to the National Government House, where there was a grand state reception at which Hector Varela made a most eloquent speech. As the Te Deum was over the soldiers fired a salute. The Governor drove to the Municipality Saloon, Col. ——formed in the file and marched with flying colors; and the band playing past the balcony. The crowd was tremendous; ladies of the first families, little children, band-box swells, all were jammed up against the policemen, who seemed to rather relish the squeeze.

The Plaza presented at this moment the gayest sight ever witnessed in this city—cocked hats, splendidly dressed ladies, at every point.

At three o'clock the acrobats began, and performed until sundown. The tops of the houses were literally black with people; the Cabildo and the Cathedral roofs afforded seats for thousands.

About five o'clock the crowds began to retire, and then the streets leading from the Plaza formed streams of human beings.

At seven oclock the fireworks came off. In the afternoon several small balloons were let off, and the artistic labours of M. Picard were set in a blaze at the appointed hour. The ephemeral edifice was fired up at a signal, blazed away and was no more.

Colon was as it only is on the 25th. In the State box we recognised all the National Government, also the Governor of Buenos Ayres. Every box, every seat in the house was occupied.

At midnight the Plaza was in a blaze.

Several private parties were given in different parts of the town,—and thus closed the May fetes of 1870.

THE ATHLETIC SPORTS.

AUTUMN MEETING.

Wednesday the glorious anniversary of Argentine Independence had been chosen for the display of those manly games so characteristic of the old country and so suggestive to the new. The greatest nations of ancient and modern times have been remarkable for their love of the Olympic games, and Argentines would do well to foster these sports. This reflection was suggested by the almost total absence of Argentine families on the occasion; doubtless the circumstance is to be attributed more to the doings in the Plaza than to a want of due appreciation, for much though we could desire to see other nationalities enter into the spirit of the thing, Argentines have other duties on their day of Independence; we cannot forget the inspired lines of the poet—

"Breathes there the man with soul so dead,
Who never to himself has said,
This is my own, my native land."

In future the sports should not be held on the 25th of May.

Never have we seen a finer day than Wednesday; the sky cloudless, and the sun which rose so auspiciously for this country shed his genial rays on the scene of sport.

There was some irregularity about the trains, the station-master, Mr. Shine, was equal to the emergency, and having informed the director by wires of how matters stood it was arranged that the train should return with the pleasure seekers, greatly to the chagrin of some half dozen passengers to Belgrano.

The stand-house looked well, as of course it always does, like a lady's bonnet, when well filled. Among others we noticed Mr. and Mrs. Russell, Mr. and Mrs. Drysdale, Mr. and Mrs. Henderson, Mr. and Mrs. Wilson, Mr. and Mrs. Stanfield, Mr. and Mrs. Maybury, Mr. and Mrs. Muir, Mr. and Mrs. Anderson, Mr. and Mrs. Forrester, Mr. and Mrs. Wanklyn, Mr. and Mrs. Hogg, Mr. and Mrs. Walker, Mr. and Miss Ramsay, Mr. and Miss Hughes, Mr. and the Misses Methven, Mrs. and Miss Griffin, Mr. and Miss Heath, Miss Godfrey, Mrs Smith, the Misses Long, Mr. and the Misses Ryan, Mrs. Whitaker, Miss Hood, Mr. and Mrs. Brown, Mr. and the Misses Plowes, the Misses Gibbins, Mr. and Josephs, Messrs. Mackern, Jones, Walker, McLean, Dowse, Aungier, Browne, Allen, Smithe, Fallon, Marshall, Coghlan, Christopherson, Colquhoun, Trotman, Sr. Braga, Sr. Amorim.

The programme, which was very well chosen, consisted of nineteen events. First in order came—

High Jump Standing.

A. D. Carroll, winner, 4ft, 3in.

Most of the knowing ones were let in by the favorite suffering from a sore foot, besides which Mr. Galbraith was handicapped one inch.

High Jump Running.

J. T. Moore, winner, 4ft. 11in.

Betting on Bond and Cooper; well contested; neatly won.

Flat Race—100 *Yards.*

T. B. Smith, winner, 11sec.

Seven started for this event, Mr. Hogg being the only one not to start much to the regret of outsiders, who backed him heavily. Betting in favor of Smith and King. The winner shot ahead from the start, was never overtaken, and won splendidly.

Throwing the Hammer.

J. Ritchie, winner.

Seven were entered for this which, to the spectators, is the slowest and most uninteresting event of the day. Rose, who has won on almost every occasion, was handicapped six inches; nevertheless, he was the favorite of the fair bettors, who insisted that the handicap deducted nothing from his appearance, nor added much to it, thought the ruder sex, who viewed with admiration the more stalwart forms of Ritchie and Pettigrew. Mr. Rose has a fine knack of casting the weight, but the Herculean strength of the campman beat him without even the six inches advantage.

Hop, Skip and Jump.

J. T. Moore	39.6
P. Galbraith	39.1

Very little betting; few willing to stake their money on the redoubtable champion of married men. The four other competitors comparatively unknown. Mr. Moore did not do badly for a railway-man, but had the favorite been in full health there can be no doubt of the issue.

Flat Race—1 *mile.*

Sylvester.

Six entered for this race, which was one of the most exciting events of the day. The course had to be rounded four times. Daniels only went it twice; Voules knocked off shortly after. The remaining four ran well, and kept together until the third round, when Sylvester, making a spurt, came in first. Stuart and Powell a dead tye for second. Mrs. Stock gave away the challenge-cup, presented by the Hon. Mrs. Stewart. Strange to say, the first prize, presented by Mrs. Best, was not delivered to the winner, though goodness knows he deserved it, for this young man's running is much admired, and may even be calledscientific.

Flat Race for Youths—300 *yards.*

Balman.

Five started at a good pace. Won in forty seconds. Mrs. Nicholson, being assisted to the table by Mr. Stanfield in the absence of Mr. Moore, delivered the prize to the youthful aspirant, who bids well.

Flat Race—440 *yards.*

T. B. Smith.
F. L. Jacobs.

Six started for Mr. Isaac's challenge cup, which the married man has won for the third and last time. The bachelors, headed by Jacobs, pressed him very close.

Walking Match—2 *miles.*

J. Somers.
R. Moore.

This was the most exciting event of the day. The length of the course and the pace they went at giving them ample time to pass one another several times. For the three first rounds the Somers, with whom the perambulating quality seems to run in the family kept a little behind, to the no small uneasiness of many knowing ones who had staked thousands on the brothers against the field. Gradually they crept to the front, the elder taking the lead in the sixth round. Some confusion was caused by Mr. Walkinshaw, who did not fulfil the expectations his name had created in certain circles. He and Mr. Perry were left far behind, the latter knocking off soon; Mr. Walkinshaw kept on until overtaken by the others, many of the spectators supposing that he was ahead: thus the sharpers netted something handsome.

Boys Flat Race. 150 *Yards.*

Wilson.
Stanfield.

Twelve started at good pace, keeping well together. Stanfield last year's winner was handicapped seven and a half yards, which he failed to pull up in time. Wilson coming in 20 seconds.

Hurdle Race. 120 *Yards.* 10 *Flights.*

Five started, Jacobs last year's winner being handicapped two yards. The betting was in favour of Jacobs and King. The style in which these two took the hurdles was very fine. Moore fell at the first flight but quickly picked himself up again. At the 6th hurdle Jacobs took the lead with King close on his heels. The last flight was broken by the leader, the second man getting so entangled in it as to give Walkinshaw his place.

Flat Race. 880 *Yards.*

Sylvester.

Five started, the race being between Bond and Sylvester. Time 2m. 29s, Mrs. Stanfield delivered the prize.

Pole Leaping.

F. L. Jacobs..... 8. 9.
R. Moore..... 8. 2.

The winner was handicapped for six inches, but had the bar put an inch higher to avoid questions. There was no betting, King being disabled. Prize delivered by Mrs. Wanklyn.

Putting the Shot.

Ritchie—33.8.

Rose, the favorite, was handicapped 15 inches; Pettigrew 2½ inches.

Flat Race.—300 *Yards.*

Sylvester.
Jacobs.

Four started; all handicapped; Smith at scratch; the two heaviest coming in in 36 seconds.

Length Jump Standing.

Carroll.....9.2
Pettigrew.....9.1

Eight entered; little betting; the favorite, last year's winner, being nowhere, on account of a sore foot.

Length Jump Running.

R. H. Stewart.

The magnificent silver epergne presented by Mrs. Drysdale brought eleven competitors into the field. As this is a challenge cup the winner will have to carry it off thrice before it becomes his.

Steeplechase.—1,000 *Yards.*

Stewart.
Moore.

For this highly interesting feat there were ten entries, but only four came to the scratch. Great anxiety was manifested at the second taking of the water leap. None got wet. Bond, who was handicapped 10 yards, managed to come in a good third.

For the Consolation Stakes four entered, Cooper winning well.

The Araucania of the Pacific line which arrived at Montevideo on the 25th, brought us exchanges from the West coast to 10th inst. from which we will give the leading extracts tomorrow The Araucania sailed for Liverpool on Thursday.

THE JORDAN WAR.

IMPORTANT INTELLIGENCE.

The news from Entre Rios yesterday was important. Lopez Jordan is still in the field, but the defeat at the Willows has had an important adverse effect on the bad cause he is defending. The *Nacion* published a bulletin yesterday, from which we extract the following:—

Intelligence has reached Santa Fé to the effect that Lopez Jordan with his army has crossed the Gualeguay at the Raigon pass. A number of his troopers have deserted, but his artillery and infantry have been reinforced, and he has now 15 pieces of rifled cannon and 1000 additional rank and file. Colonels Martinez and Tabonda have taken Cala and remain in garrison there with their divisions. The National troops on the Uruguay are reported at San Jose, Almada with his cavalry retiring before them. The rebels have invested Concepcion, but the garrison expected reinforcements by the steamer Teresa that would enable them to raise the siege.

Some papers of Lopez Jordan taken at the Willows show that he is Commander-in-Chief, Staff, Adjutant General, &c., all in one, he gets through an immense amount of work. A Colonel Pasos (a Porteño) was until lately Chief of the Staff.

Jordan began to retreat on the 9th. On the 19th he halted at the bridges on the No-go-yet (Nogoyá) arroyo, destroying them when the advanced guard of the National army appeared. On the 20th Conesa crossed and drew up his army for battle.

The ball was opened by the Artillery, and then the Jordanites fell in masses on the left flank of the National army. Colonel Leones, with some Entre Riano cavalry, met the shock, and obliged the enemy to retire. Another arroyo was then crossed. As the National troops struggled into position through the mud, on the opposite side, they were received by a galling fire from the enemy's skirmishers.

The infantry now charged the Jordanites with the bayonet; but Lopez Jordan himself, at the head of 1,500 picked troopers, shot like lightning from his lines, and fell on the advancing infantry. They were bravely met, and the 12th Regiment forming square poured in volley after volley, and forced the enemy to sheer off.

At the moment the Jordanites charged under their General on our right wing, a vigorous attack was made on our left wing, which was completely doubled up.

General Galarza rallied his divisions and the fire from a single field-piece shook the cavalry, and drove them back from an onslaught on the rear guard. They were charged in flank when galloping off and lost some men.

Jordan has a great superiority in the quality of his horses, and retired in perfect order, with his 'fantassins' mounted on spare chargers.

General Conesa pays a tribute to the rapidity of movement of the enemy's horsemen.

The field of battle was strewn with dead and wounded and a heap of 'materiel' of all sorts.

The Jordanites lost 200 men and carried off most of their wounded.

The national loss is reported as insignificant, only eighty men.

The Entre Riano cavalry under Conesa were doubled up and thrown into confusion several times, but always reformed.

The conduct of the officers and men of his army during the fight is praised by the General in command.

One flag, 250 horses, and a quantity of ammunition and other articles fell into the hands of the victors.

The Krupp steel guns gained the victory for Conesa.

Majors Leguizmon and Palavecino command under Jordan; the latter formerly belonged to the Ninth of the Line.

Lopez Jordan's army is much demoralized by its defeat.

A leader on Jordan's side has passed over with 100 men.

Colonel Bastarrica badly wounded.

Army in great spirits and anxious for a decisive battle.

EDITOR'S TABLE.

The birthday of our most gracious Sovereign Queen Victoria is kept today at the British Legation. Throughout that worldwide empire "on which the sun never sets" the birthday of our Queen is celebrated and revered with that deep and heartfelt loyalty peculiar to the Anglo-Saxon race, and which her life as a woman and a sovereign only intensifies and increases as years roll on. The British community of the River Plate yield to none in any quarter of the globe in patriotism and admiration and affection for our noble Queen, whom may God long preserve. Her Majesty has now completed her 51st year, and is still hale and hearty, notwithstanding the periodical attacks of slight illness to which she has been subject since the ever to be deplored death of the Prince Consort. There is therefore every hope and probability that she will be still long spared by Providence to adorn the throne of England with the public and private virtues that have rendered the name of Victoria expressive of the highest and best qualities that womankind can possess. God save the Queen.

The May fetes passed off this year with an unusual eclat, and were equally distinguished for their brilliancy and the order observed during their continuance, by the population of the city and the crowds that flocked in from the most distant parts of the province to enjoy the holidays. The proceedings incidental to Independence Day commenced early on the 25th; but the events to which most attention was lent by the 'upper ten' were the Te Deum and Presidential levee at the Government House. The ceremony in the Cathedral was most impressive. The throng of Cabinet Ministers, Foreign Envoys, Secretaries, officials of every grade, general officers and their staffs, and the members of the fair sex was larger than we remember to have seen on any previous occasion. We must remark that the choir was by no means equal to so grand an occasion, the instrumental accompaniments being just sufficient to spoil the effect of the organ and the very tolerable singing. The service over, President Sarmiento entered the State coach and drove by a short detour to the Government House where he received the Diplomatic Corps, Cabinet Ministers, Senators, Deputies, high Civil and Military functionaries, and all the leading men of the city and Republic, most of whom were accompanied by ladies; the exquisite 'toilettes' of the latter added greatly to the animation and brilliancy of the scene. The reception terminated about 4 o'clock most of the visitors having previously made their way to the Municipality. At sundown a salute of 22 guns was fired bringing the official proceedings of the day to a close. The illuminations and display of fireworks in the Plaza at night were very brilliant, and attracted a compact crowd that remained packed together for hours gazing at the soaring rockets and blazing wheels, the greatest decorum and good humour prevailing the while. We never remember a finer or more enjoyable Independence Day; let us hope that it foreshadowed a happy and prosperous year for our adopted land.

We publish to-day our Packet Edition for the French mail steamer Sinah which sails on Monday for Europe. It can be had as usual at Makerns and Leodels.

Lopez Jordan, Entre Rios, the Banda Oriental, and all or any other places to which we are accustomed to look with such interest on ordinary days, were almost completely forgotten in the turmoil and joyous excitement of the fetes. The news from the seat of rebellion is rather favourable. Lopez Delany Jordan, so often reported as on his last legs, is by latest accounts rapidly tending towards that position. He is said to be falling back on Corrientes, others say he intends crossing to the Banda Oriental. Both these reports must be taken with reserve. Of the Aparicio revolution there is little further to hand. The revolutionary chief is reported as usual here, there, and everywhere, with Perez, Caraballo, Castro, or some other government leader at his heels. He is evidently, however, a slippery fish, and uncommonly hard to catch. The latest report is that Pando has been sacked by the revolutionists. There is tremendous excitement in Montevideo.

Our attention has been called to the expense the poorer class of European emigrants are put to when placed in quarantine on their arrival here. We hear the cost amounts to five shillings per diem, which is a very serious affair for agricultural labourers, poor artizans and female servants who generally come out without any ready money whatever. That very useful body, the Immigrants Aid Association, might see what could be done towards mitigating this inconvenience, which we should add however is felt in every port in the world, and to a much greater degree, with the exception of New York, where the Government arrangements for the reception of new comers are so perfect that no expense has to be borne by the poorer immigrants on their arrival, no matter whether in quarantine or not.

The Athletic Sports Society's Autumn Meeting, which took place on Wednesday last, will be found fully described in another column. Everything favored the Athletes, and their countrymen and women betook themselves, as we anticipated, 'en masse' to Palermo; not one of them were to be found for love or money in the Plaza, Government-house, Municipality or any of the centres of attraction within the city walls. We never remember a stronger muster at the Sports. The local British world and his wife were there, not forgetting the nurses and children who naturally mustered strong on the occasion. The prizes were extremely handsome and valuable, and many of them being presented to the Society, proves the increasing interest taken in these popular exercises by our English community. We sincerely congratulate our Athletic friends on the brilliant result of their Autumn Meeting.

The La Plata Club gives its May ball to-night, and it is expected to be very brilliant. The Club House has lately been painted and newly decorated from roof to basement story, and is in admirable condition for a hop.

The great attractions for the sovereign people who surged round the Presidential procession on Wednesday in the Plaza were the State coach and light pieces of attillery. The former is a very nice turn out, with good horses and very showy silver plated harness; it reminded us, faintly of course, of the glories of the Guildhall vehicle or the still more ancient glass coach

used in Dublin on New Years day. Non-professionals had a warm discussion as to whether the little guns were pieces of 4 or samples of the newly invented 'mitrailleuse'; we could not get near enough to them to decide. These 'bijou' guns were in splendid condition, as bright as a new pin, but the accessories, horses, caissons, &c. were not at all up to the mark.

An unpleasant incident is mentioned by the *Capital* of Rosario as having occurred in the excursion train from Cordoba to Rio Segundo on the 18th inst. So crowded was the train that several ladies were left standing while many lords of the creation remained comfortably seated. Dr. Ovideo Lagos, who observed the anomaly, raised his voice gallantly on behalf of the ladies and reminded the gentlemen in question of their duty. The Chief of Police who was in the train tried to silence the ladies' champion, labouring under the idea that he was "kicking up a row"; Sr. Lagos was not to be vanquished in so good a cause, and finally succeeded in getting the gentlemen out of their seats and the ladies into them. The latter immediately made room for their trusty knight in the most comfortable corner of the carriage, as a mark of gratitude for his services in their behalf.

Dr. Skinner for whose fate such anxiety existed here some time ago, has just arrived from Paraguay in excellent health. His experiences in that unhappy country were most varied and dangerous; he confirms the accounts of the frequency with which Venancio Lopez was whipped. The unfortunate man would barely have recovered the effects of a flogging ere another would be prescribed for him; he succumbed at last.

The Chiarini circus troupe make their first appearence this season to-night in their old quarters in Plaza Parque. Although yellow fever and other causes have caused the disappearence of many old favourites, the company has been largely reinforced and we hear it is stronger in men, women and horses, in fact in every way, than last season. Everyone who enjoyed the equestrian spectacles afforded by Chiarini and his troupe last season will need no further recommendation to induce them to go this time.

The rehearsal of the Philharmonic Society announced for this evening, has been postponed until Monday the 30th inst, at seven o'clock p.m. precisely, at the Coliseum.

We had a look early yesterday morning at the levelling works now going on at the Plaza Constitucion. They are in a very advanced state, and the old arroyo running from east to west, and which was such an eyesore, is now nearly covered in. These much needed improvements are in a great measure due to the ceaseless activity of the local committee of residents in pressing them on the authorities, Messrs. Cernadas and Prange being particularly remarkable for their energy in the matter and the efforts they continue to make to press them to a speedy termination; it is believed they will be finished before winter closes.

Madame Lynch is in Rosario and may shortly be expected here. In speaking of this lady the leading local organ, *La Capital*, says, "Madame Lynch belongs to the most brilliant and grandest page of Paraguayan history."

Private letters from Entre Rios say that General Conesa greatly distinguished himself at the battle of the Willows; he was several times in the thick of the fight, and was everywhere his presence was required.

The Alegria Theatre was opened on Monday. It was crammed to the doors, every spot in the house being indiscriminately invaded by the audience; in some of the boxes as many as twenty people were to be seen standing and sitting on each other; there is a capital low comedian amongst the company, which is a very fair one.

The Football Club had their opening match of the season at Palermo on Thursday. At twelve o'clock play commenced. The Bank losing the toss were sent to the west goal, with the wind dead against them; nevertheless, although outnumbered, they fought hard, and it was only with the greatest difficulty that two goals were won by Heald and Mulhall. Subsequently a match was picked, giving Messrs. Bond and Walkinshaw a means of distinguishing themselves. Captains Hogg and Heald led on their men gallantly to the charge, and many a glorious scrimmage ensued. The spectators declared they had never witnessed a better match. Everyone played in a fair and gentlemanly way, showing by their respect for the rules their high appreciation of this time-honored game. No attempts at 'hacking' or gripping were observable. We recommend all admirers of this fine old English game to attend the next meeting.

We have mails from Asuncion to the 18th inst. The only news of importance is that Mr. Hopkins offers for sale the whole of his steam mill and machinery, the latter driven by an engine of 80 horse power. He also offers to sell the little screw steamer Gamo, built for navigating the river Tebicuari. Mr. E. Hopkins returns soon to Buenos Aires. There is a fierce contest for the candidateship for the Presidency between Barcino and Riverola.

Wednesday.

The latest news of the war is a despatch from General Caraballo reporting Maximo Perez with 500 horse and 140 foot in full pursuit of Aparicio somewhere about Durazno. Col. Moyano is at Salsipuedes Chico with 700 men, waiting reinforcements from Tacuarembó. The country north of Rio Negro is pretty quiet, and General Caraballo keeps a sharp look out after the rebels: he reports that a body of 500 men who were on the Entre-Riano shore about to make a descent on Paysandú have now besieged Concepcion in the interest of Lopez Jordan. A grand review of the garrison of Paysandú was to come off on the 25th, but Caraballo postponed it till the 29th; the forces comprising 3 batts. of infantry and 4 regiments of cavalry.

President Batlle having received permission from the Legislature to take the field in person the Executive power devolved on Dr. Vidal as President of the Chamber; the latter proceeded to-day, accompanied by various Senators to the President's office where he took the usual oaths and assumed the reins of power.

To-morrow the Athletic Sports come off at the Union; there will be 17 events including the usual feats of throwing the hammer, pole-leaping, hurdle-racing &c.

The war-vessels in port fired a salute to-day for the Queen's birthday, and Fort San José replied.

A funeral service was performed to-day at the Matriz for the repose of those who fell in the Paraguayan war.

DIPLOMATIC CORRESPONDENCE.

SR VARELA'S REPLY.

The Minister of Foreign Affairs, to the Secretary of H. B. M.'s Legation.

Buenos Ayres, May 21.

Sir,

I am informed by your note of the 17th inst. that you have observed with much surprise and regret that the President of the Republic, in his message at the opening of Congress, has made an unfavorable and pointed allusion to the conduct pursued by H. B. M.'s Government in ordering the publication of a notice in London, addressed to British emigrants, warning them against emigrating to the Argentine Republic, in view of the insecurity of life and property there. Under the influence, doubtless, of that surprise, you have been led into the extreme of committing injustice towards the Republic which does not harmonise with the benevolent conceptions expressed in your note of the 17th inst., which I had the honor of answering yesterday; and the Argentine Government doubts not that if the Secretary of Legation has re-perused the English translation of the message, he will have noted that there are substantial differences between that which he establishes and that which the message states. It has been so far from the intention of the President to make unfavorable allusions to H.B.M.'s Government when referring to the facts touching the notice published by its order, that to-day, after the observations made by yourself, he still insists on believing that that notice was issued with little reflection, because were it otherwise, one would be led to believe that the English Government has the design of parading hostile views towards the Argentine Republic, and the President considers that he cannot without injustice attribute to it such sentiments.

You too in your previous note to which I now reply, endeavour to show that H.B. Majesty's Government views with benevolent eyes the progress of the Republic, and wishes that its prosperity may advance in every sense. How then explain the publication of that notice, the consequences of which had it not been for the protests of our numerous friends resident in England, might have been so prejudicial to our interests, unless by attributing imperfect knowledge of our country to the Government which orders it. The Secretary of Legation always influenced by the surprise which the perusal of the message has occasioned him, tries to demonstrate that the facts justify the step taken by H. B. Majesty's Government, which step he assures us it is far from the intention of the Government to retrace, in view of the crimes which have lately occurred in Entre Rios. Again permit me to observe that the President of the Republic, has not said nor could have asserted that the English Government had withdrawn the notice; he simply announced that according to information received from our Minister and Consul General in London, H.B. Majesty's Government had advised the withdrawal of the notice, and is it a wonder that the Argentine Government should give credence to the statements of its representatives in spite of the assurances to the contrary of the Secretary of Legation.

I have in my note of yesterday answered all your fresh allusions relative to the insecurity of the Republic, and I would not add a word more on the subject, if you did not compel me to do so, to demonstrate how impolitic you have been in selecting the events of Entre Rios, as a proof to be exhibited of the impunity for crime amongst us.

In fact the Government is at present engaged in a war that, that crime committed against a high functionary in that province, may not pass unpunished, and you yourself can testify that public opinion, the press, governments, and even the different political parties have grouped around the National authority to sustain it, notwithstanding that all did not sympathize with the victim of assassination; and all deplore the misfortune which such a war brings upon us, by retarding the happy development of the national vigor which alone can be fostered under the shade of peace. Whoever may judge dispassionately what the attitude of an entire people signifies, must admit that it responds to the sentiments and ideas of which the Government, which you represent, makes a boast in the adoption of measures so excessively rigorous as those which that Government are about to put into practice in Ireland, in order to assure security to life and property in that part of English territory, where it is not enjoyed as in the remainder of the United Kingdom. A people which like the Argentine, accepts a war with enthusiasm, raising for banner the condemnation of crime, has a right to be considered as a people that aspires to cement its social order on the bases of morality and justice.

It the assassinations committed in Entre Rios had been viewed with indifference by the Argentine Governments you would then have reason for presenting them in justification of the perchance involuntary accusation preferred in the notice published in London; but when 12,000 men are under arms pursuing the criminal there is as much injustice in throwing discredit upon our country simply for the commission of that crime as there would be in discrediting the United States because its great President perished at the hands of an assassin—You must permit me in consequence to state that my Government does not participate in your opinion in supposing that the events of Entre Rios will have any effect on the minds of the British Cabinet causing it to persist in the error of sustaining the publication destined to forewarn English Emigrants of the dangers which they incur in emigrating to the Argentine Republic. Nothing is more common than disasters at sea and the English people probably count a greater number of victims swallowed by the waves than any other nation in the would, yet it would be inexplicable to see a notice advising British subjects not to navigate because some of them might be shipwrecked. If such a notice were published the fact would be that all would still risk the perils of the deep, since the interests or pleasures which propel mankind, have more influence on their mind than the apprehension of danger—to which unfortunately we are exposed in every act of life. In concluding this communication which I address to you by request of the President I must specially intimate to you in his name that far from objecting to your giving publicity to the observations contained in this reply it is his particular wish that all these documents may be brought before the public, as he is persuaded that he will find in each foreigner who reads them, a supporter and personal example of the great advantages which the Argentine Republic offers to those who come hither from other lands in search of a reward for toil, a life of prosperity and felicity.

With this motive I have the honour of reiterating the assurances of my consideration.

MARIANO VARELA.

ATHLETIC SPORTS.

26th May 1870.

Mr. Editor,

I think I owe it to myself to inform those of your readers who do not know me, that my eldest son James was born on the 5th of June 1859, (vide the family Bible and the register at the English Church), so that but for the handicap his proper start in the Boys' Race would have been 20 yards from scratch. On the 6th May 1868 he started at 20 yards instead of 25, as the Committee for that Meeting saw fit to handicap him five yards.

I am sorry that the 'Boy under 14 years' should have allowed the letter in your impression of yesterday, which implies far more than it expresses, to be published, as I have every reason to believe that he was in full possession of the above facts, and indeed the present handicap of 7½ yards, in less than 150 was enough to show that the present Committee knew their duty. Whether the handicap is sufficient has yet to be seen, as the lad was accidently thrown quite out in the race yesterday, which I regret the less, as he has already won several prizes, and it enabled his younger brother to take a place.

JAMES N. STANFIELD.

ON 'CHANGE

	May 27th 1870
Ounces,	400
Sovereigns	122½
Patacons	25
Nat. Bonds	67½

To-day there was a tight bond market. Bonds opened at 67½ cash and closed at 67½, but in the liquidation prices looked up still higher and there were buyers for the end of the month at 68. For the end of the month of June buyers at 68½ Money was felt much easier on the Bolsa to-day city bills were discounted to-day at ½, that last week could not be done at 1¼ per month. There were large sums offering on bonds, but few parties seem inclined to enter the business until something definitely is fixed respecting the loan, and parties who have the entree of the Government House stated that it is probable the loan will be concluded this week, at or about 80, conditioned that the dividend warrants or coupon be payable without the presentation of the bond which new arrangement it appears will in all probability be carried out this quarter by order of the Minister of Finance, and extended to all the National Bonds at present in circulation.

The news from Entre Rios was considered of a much more favorable character: the statements in the bulletins are fully borne out by parties who have arrived here from Gualeguay. Sr. Sagastume arrived on Tuesday from Concepcion, and one of Jordan's officers who fired at Commander Elia in Concepcion and shot away his horse's ear, has also been sent down under arrest to this city. The full import of the repulse which Jordan has suffered is now beginning to be understood, Jordan has fallen back north, but large numbers of his men have deserted, and are now in the little towns.

The Minister of the Interior returned to-day in company with Sr. Jardel, manager of the Transandino Telegraph Company, and others. It was stated on 'Change that during Dr. Sarsfield's absence from town, one of his servants robbed the house, stealing $13,000 m|c. and 100,000 National Bonds. Respecting these bonds, we are happy to say, that they cannot be negotiated, as they are registered in the name of Dr. Sarsfield in the "Libro Mayor" of the Government-house, and there was every probability at the Policia this afternoon that the th of and the bonds would be found.

Exchange ruled rather flat to-day, and most of the business was done on England at 49¾. On France there was much fluctuation; several bills were passed in the *morning* at 5·20, and in the afternoon the same bills were done at 5·17 and 5·15, at which rate there are takers.

The Bond sales to-day were as follows:—

For cash 15,000, opening at 67½, closing 67¾.

For June 30, 10,000 at 68¾.

The news from Montevideo created much notice, and the sacking of Pando was announced by telegraph. Bustamante at the head of 600 cavalry and infantry had marched out to the relief of the town; the rebels cleared out. The Araucania arrived true to time, and has left for Europe.

Advices by the mail have been received of the nomination of Mr. Hamilton as United States Consul at Rio, and of Mr. P. L. Mejggs, of Tennessee, as United States Consul at Montevideo. Mr. John L. Stevens, of Maine, has been named United States Resident Minister at Montevideo.

In the produce market to-day there was great animation; all that came into the South Market within the last few days—some 80 carts—was at once sold. Very important transactions have occurred in sheepskins at a declining rate.

The sales in wool show an dvance; mixed mestiza 55 to 58, and some good wool from Chascomus at 60 and 65.

Dry hides—Large sales in both Plazas at 142, 147 and 148,

Sheepskins—Heavy sales at 70, 80, to 115 per doz., and some good matadero at 148.

Horse-hair—At from 172 to 178.

Wheat—Large sales at 128 to 156.

Maize—From 46 to 50.

Barley—68.

Horned cattle for the saladeros show a smart fall; capones from 28 to 37; several troops sold in Barracas and Chascomus.

Mr. Cassafouth purchased two small dwelling houses this day at reserved price. Real estate still keeps rising and central property easy of sale.

Mr. Terence Moore, the well-known almacenero, will leave in a few days for Europe.

Two of the best known English estancias in the South of this province will shortly be offered for sale in the market.

Madame Urquiza has purchased the large dwelling house in Calle Parque, near Rio Bomba, 17 x 70 with 16 rooms and large patios beautifully finished for 32,000 pats.

LET THE LADIES DECIDE.—On all matters connected with the graces and embellishments of the toilet the taste of the ladies should be consulted. A gentleman uses perfumery, for example, not so much to please his own fancy, as to render himself agreeable to the fair sex, and therefore he should never use a perfume which they do not approve. Ask fifty ladies in succession what perfume they consider the most delicate, the most pure and salubrious, the most permanent, and in all respects the most desirable, and forty-nine of them will answer, Murray & Lanman's Florida Water. There are some open questions with regard to the toilet, but this is not one of them. The Ladies have settled it—wisely and finally. As there are counterfeits, always ask for the Florida Water prepared by Lanman & Kemp, New York. 24

AN ABSOLUTE SAFEGUARD.
Invalids, broken down in health and spirits by Chronic Dyspepsia, or suffering from the terrible exhaustion which follows the attacks of ecute disease, the testimony of thousands who have been raised as by a miracle from a similar state of prostratio by HOSTETTER'S STOMACH BITTERS, is a sure guarantee that by the same means you too may be strengthened and restored. But to those who stand in peril of epidemics, to all who, by reason of exposure, privations, and uncongenial climate or unhealthy pursuits, may at any moment be stricken down, this paragraph is most particularly and emphatically addressed. You, who are thus situated, are proffered an absolute safeguard against the danger that menaces you. Tone and regulate the system with this harmless medicinal Stimulant and Alterative, and you will be forearmed against the maladies whose seeds float around you in the air unseen. HOSTETTER'S STOMACH BITTERS are not only a standard Tonic and Alterative throughout the United States, but they are accredited by the certificates of the most distinguished citizens of the Union, to the people of all other lands. In Canada, South America, West Indies, and even in this country, they are gradually taking the place of all other stomachics, whether native or foreign and as surely as truth is progressive and demonstration overthrows doubt, they will eventually supersede every other Invigorant and Restorative now employed in medicinal practice. 2

CARBOLIC ACID.
DISINFECTING POWDER.
Carbolic Acid has long been famed for its disinfectant properties, and the Powder now offered to the Public has been duly examined and highly recommended by the Minister of the Interior of the Kingdom of Bavaria; by the Medical College of Saxony; by Professor Dr. Knop, of Leipsic, and also by Dr. Bock, and other authorities.
One Pound of this Powder, put into a Bucket of Warm Water, will prove a valuable Disinfectant Wash for either man or beast. Small quantities used for destroying foul smells, will be found invaluable: repeating its use when it loses its power.
This Preparation is put up in Cardboard Boxes, so that by making holes in the lid it can be sprinkled in the desired place.
N.B. It is guaranted not to spot.

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current we now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maná & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

Those advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at Nº 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to esch depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated with the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. Maua & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules estabished by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

DYSENTERY, CHOLERA, FEVER, AGUE COUGHS, COLDS, &c.

DR. J. COLLIS BROWNE'S
(Ex Army Med. Staff)
CHLORODYNE.

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. COLLIS BROWNE was undoubtedly the Inventor of CHLORODYNE that the story of the Defendant, Freeman, being the inventor was deliberately unfrue, which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne, that they prescribe it largely, and mean no other than Dr. Browne's.—*The Times*, July 12, 1864.

The Public, therefore, are cautioned against using any other than
DR. J. COLLIS BROWNE'S CHLORODYNE

REMEDIAL USES AND ACTION.

THIS INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while Medical men extol its virtues most extensively, using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma, Rheumatism, Neuralgia, Whooping Cough, Cramp, Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See *Lancet* Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay:—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after 18 month's severe suffering, and when other remedies had failed."

Extract from *Medical Times*, Jan. 12, 1866.—"Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it would not thus be singularly popular did it not 'supply a want and fill a place.'"

Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

Beware of spurious and dangerous compounds sold as CHLORODYNE, from which frequent fatal results have followed.

See leading article, *Pharmaceutical Journal*, Aug. 1, 1869, which states that Dr. J. Collis Browne was the Inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the word "Dr. J. Collis Browne" on the Government stamp Overwhelming medical testimony accompanies each bottle.

MARAVILLA COCOA—*For Breakfast.*—The *Globe* says "Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs. Taylor Brothers, discovered the extraordinary qualities of 'Maravilla' Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For homœopaths and invalids we could not recommend a more agreeable or valuable beverage."
